Woven solutions for a care home for people with dementia

# Interior Design Brief

### GARDEN DETAILING

On this floor a garden of the same design, framed in a small, raised, or elevated structure, is proposed. This will create an outdoor space, with a raised garden bed, for the students to use. The garden will be a mix of raised beds, and a central area for seating. The garden will be a mix of raised beds, and a central area for seating. The garden will be a mix of raised beds, and a central area for seating.

## GROUND FLOOR

CA, 2019, 006, P1, Ground Floor

The 'Innovative Material' has been chosen to be used throughout the building. It is a sustainable, eco-friendly material that is also very durable. It will be used for the walls, floors, and furniture. It is a sustainable, eco-friendly material that is also very durable. It will be used for the walls, floors, and furniture.
