

## **Professor Dugald Duncan**

My aim if elected as a member of Senate will be to try to ensure that this university does an excellent job in teaching and research and to try to represent interests of the School in these matters. I do have some previous experience to help me do that, and have seen different aspects of the challenges faced in and by the university over many years. I have been a member of Senate, Senate Business Committee, Court, and Chair of the Senate's Quality and Standards Committee.
