

**Larry O'Brien**

Your vote to represent MACS at the Senate is requested by Malaysian campus Assistant Professor Larry O'Brien, ASA. I have a decade of business experience from working for a couple of large multinational corporations as an Actuary in the US and transitioned to academia about 11 years ago. Heriot-Watt is the third university I've worked at that is recognized by the two largest professional actuarial organizations. I recently completed an appointment as a member of the Heriot-Watt Malaysian Executive Management Committee and the Associate Head of School for MACS.

I'm currently a member of the Academic Council and Associate Director for Internationalization. I have also been a member of a university Actuarial Advisory Board, awarded scholarships, advised students, and dealt with academic misconduct at other universities.
