

**Dr Olisanwendu Ogwuda**

I am standing for re-election as a Senator

Having served as the EGIS “Dubai” Senator since July 2015, I have now understood how important it is to have a School representative from Dubai on Senate. It is important to ensure that the views of Dubai colleagues are heard and also to feed back to Dubai colleagues the deliberations in Senate. As we move towards developing the University Strategy and University Structure (Colleges, Schools, etc), it is now even more important to have School representation on Senate from Dubai and I feel that I am best placed to ensure that the School “Dubai voice” is heard. I am keen to continue as a Senator as I have been involved in the initial discussions/meetings around the overall University direction and would like to see this through in my second term as Senator.
