

Dr Patricia Vargas

Senate is one of the most important bodies within HWU as it determines the basis for the design of frameworks of more specific rules that govern our institution. As a senate member, I strongly believe that I can make a substantial contribution not only in terms of generating new ideas and bringing insight to the table but truly generating impact during my service. I am particularly concerned about how the decisions made in the senate could affect policy and our academic daily life, in particular the college structure. Therefore, I will engage with the discussions and development of policies, making sure proposed changes represent improved regulations and are feasible within the desired time frame. As someone once said: "If you want to influence, you have to be involved!"
