

**Dr Shumei Gao**

I have served as a Senate representative on the University Studies Committee (USC) since August 2015. In this capacity I have worked on moderation and quality assurance of courses and programmes across different campuses. I have accumulated experiences in the internationalisation process and played a leading role in a couple of Chinese partnership agreements.

I would like to continue to serve on the Senate and would appreciate your support. If elected I would continue to work on integration issues concerning both student and staff and work towards a “harmonious” (to use the Chinese cliché) environment.
