In summary, I see and appreciate the importance of enhancement processes to the University's ambitions, whilst also recognizing the need to have appropriate checks and balances in place to ensure those ambitions are achievable. I believe I have the right set of skills to participate in the discussions around academic practice in relation to both students and staff alike, and that the breadth of my roles and responsibilities makes me a suitable candidate for appointment to Senate.

Dr John-Paul Marney	Ms Kate Clements	Dr Akira Yonekura
